Deciding where to study is a big decision. Moving to a new country to study is even bigger. So, here is the breakdown of how Norway might be the best place for you. And, how BI Norwegian Business School (BI) can make it an easy choice.

Studying in Norway is the experience of a lifetime. Why? Because we have high mountains, deep fjords, the northern lights and midnight sun, mysterious forest and long coastlines. More? Let’s talk about Norwegian society: safe, high standard of living, a thriving economy and a commitment to sustainability make us among the happiest people in the world. Want proof? Check out the UN’s World Happiness report.

Choosing a business school in Norway is easy. From bachelor to PhD, at BI we have a programme that will help you achieve your career goals. You will study in an international environment, at a business school with close ties to the business community who value the skills and competencies of our graduates. Our commitment to investing in research and recruiting top faculty from around the world sets us apart.

But, your success means everything to us. So we have invested in building a dedicated careers services team to guide you in your job search. We have built modern state-of-the-art campuses with the comfort and convenience of everything you need: the gym, the library, the pub and technology rich classrooms all under one roof. All of this, and an expansive network of alumni to inspire you.

QTEM MASTERS NETWORK - PROGRAMME OPTIONS

Earn your master’s degree as part of an international network of 25 of the best business schools in the world who partner with leading corporations committed to developing global talent with strong quantitative competencies, analytical skills, international and intercultural experience, and management potential. If you are looking for a master’s degree with global reach and an emphasis on the quantitative and analytical skills in demand by employers, then the QTEM Master is the degree for you. The QTEM Masters is part of the following programmes at BI:

- MSc in Applied Economics
- MSc in Business Analytics

BI ALUMNI PROFILE - QTEM

Astri Skjesol
Master of Science in Business - major Finance
Graduated 2018

I chose the QTEM programme because it offered an opportunity to go abroad. Also the focus on quantitative subjects at respected schools made the programme desirable.

The QTEM master program is attractive potential future employers.

The one feature that interested me the most about the QTEM program was the prospect of two semesters abroad at different schools. This opportunity allowed me to experience new cultures and meet new interesting people.
