**BI ALUMNI PROFILE - QTEM**

Astri Skjesol
Master of Science in Business - major Finance
Graduated 2018

I chose the QTEM programme because it offered an opportunity to go abroad. Also the focus on quantitative subjects at respected schools made the programme desirable. The QTEM master network has corporate partners that I considered as attractive potential future employers. The one feature that interested me the most about the QTEM program was the prospect of two semesters abroad at different schools. This opportunity allowed me to experience new cultures and meet new interesting people.
